Job description:

Summary

Nu-Pro Limited apply Surface Treatments/Coatings to a huge variety of manufactured components for a whole range of industries. Our USP is our ability to machine components, design and develop coatings and treatment systems to solve engineering problems.

Why work for us?

At Nu-Pro we are looking to develop a positive culture throughout the company, engaging and enhancing our workforce at all times, and looking for someone to join with the same values; Pride, Openness, Excellence, Teamwork, Originality, and Nurture.

You would be working for an environment that strives towards excellence and wanting to further develop their employees.

Essential duties and Responsibilities

- Wash, blast and clean parts and materials before processing
- Mask areas for selective plating.
- Treat parts in proper solutions; monitor solution levels and notify supervisor for solution correction.
- Load and unload plating equipment as instructed.
- Report any questionable work to supervisor.
- Assists other operators with various plating operations as assigned.
- Maintains work area in a clean, safe and orderly condition.
- Adhere to Nu-Pro company policies
- Performs other duties as requested, necessary or appropriate.

In addition to the above, Operators are to maintain an organised, clean and safe work area using safety standards and expectations while adhering to all quality practices. Management may change responsibilities and/or assignments to meet the business needs without prior notice.

Education and/or Experience:

- Six months related experience and/or training; or equivalent combination of education and experience.
- Effective communication (written and oral) skills.
- General understanding of typical measuring methods in a manufacturing environment.
- Knowledge and/or understanding of important aspects of AS9100 Quality Management System a plus.
- Understanding of basic shop math.

Individual requirements, knowledge & experience

- Experience in a similar role
- Good communication skills
- Good interpersonal skills
- Excellent writing and proof reading skills
- Well organised
- Language: ability to read and interpret documents such as safety rules, operating and maintenance instructions and procedure manuals; ability to verbally communicate effectively.
- Ability to read and interpret technical drawings
- Ability to read and interpret router instructions and specifications.
- Properly use micrometres and other gauge measuring tools.

Salary dependent on experience and qualifications

Nu-Pro Limited is an equal opportunity employer committed to recruit, hire, train, and promote in all job categories without regard to race, colour, religion, sex, sexual orientation, gender identity, national origin, age, disability, veteran status or other status protected by applicable law.
